Indira Nagar, Bangalore, Karnataka

CORE COMPETENCIES

- Agile/ Scrum Methodology
- Full Stack Development
- Front - End Development
- Back - End Development
- Web Development
- System Integration Testing
- Technical Documentation
- Software Development Lifecycle
- Software Testing

TECHNICAL SKILLS

Languages: JavaScript
TypeScript Java SQL

Frameworks/Libraries:
Node.js React.js Express.js
Spring Boot Hibernate
Redux Material UI
Tailwind CSS Mongoose
Storybook JPA Kafka

Databases and Tools:
Mysql postgresql Redis
MongoDB Sentry
SonarQube Docker AWS
CI pipelines

EDUCATION

- B.Tech. in Computer Science**, Jaypee Institute of Information Technology, Noida, 2017.

CERTIFICATIONS & COURSES

- React Boot Camp, Modern React with Redux, 2023
- The MERN Full Stack Guide, React Node Mongo & Express Course, 2023.
- Coding BootCamp - AttainU MERN Stack (Web Development)

VISHAL SONI

PROFILE SUMMARY

- Possess **3 years** of experience in **software development**, specializing in **back-end and full stack development** across various industries.
- Worked as a **Senior Software Developer at 91 Social, Bangalore**, leading the development of **user-friendly interfaces** and managing application modules effectively using Node.js and Java, showcasing proficiency in software development.
- Achieved success in **leading teams, delivering complete products**, and optimizing back-end performance for enhanced functionality.
- Critical-thinker** with expertise in **future product planning**, developing each element of the server side and writing clean & scalable codes
- Skilled in **connecting several systems into one, software testing** at different stages of development and developing & debugging product components
- Familiar with **working with development teams and product managers** to ideate software solutions, designing client-side and server-side architecture
- Contributed in **building the front-end of applications** through appealing visual design, developing and managing well-functioning databases and applications
- Proficient in leveraging a diverse technical skill set encompassing **JavaScript, Node.js, React.js, Java**, and various other technologies to develop innovative solutions and drive project success through efficient **coding practices and strategic problem-solving approaches**.

WORK EXPERIENCE

91Social, Bangalore
Senior Software Developer
Dec 2023 - Mar 2024

Worked as a Senior Software Developer, developed high-quality software, identified and executed tasks in the software development life cycle, reviews and debugs code, collaborated with internal teams, and ensured software is up-to-date with the latest technologies.

Lancesoft (Lentra.AI-Client), Bangalore
MERN Stack Developer
Apr 2023 - Nov 2023

Operated as MERN stack Developer, proficient in JavaScript framework used for building web applications. It is an acronym for MongoDB, Express. js, React, and Node. js. Each component of the stack plays a specific role in the development process.

FlipTree, Remote
Server Developer
Feb 2022 - Jun 2022

Worked as Server Developer, designed, expanded, updated, and maintained databases and application tools using SQL servers and established a database system and script functions to extract, store, and load data.

PrepLeaf, Delhi
Software Developer
Oct 2019 - Nov 2020

Worked as Software Developer, expertise in using the programming skills to create new software and improve existing software applications. Designed and wrote the code used to build everything from operating systems to mobile apps to video games.

PROJECTS UNDERTAKEN

Personal Portfolio
Technical Tools Used: React, Redux, GeoLocation, Aws, Mongoose
Responsibilities:

- Spearheaded the implementation of complex features, ensuring robustness and scalability.
- Optimized back-end performance through database tuning, caching strategies, and asynchronous processing.
- Led the development of a smart online ticketing system using Typescript within a monorepo architecture.
- Collaborated with cross-functional teams to integrate AI functionalities for advanced ticket management.

PERSONAL DETAILS

- Date of Birth: 18th July 1995
- Languages Known: English, Hindi & Bhojpuri

- Ensured the successful launch of new features, contributing to performance enhancements.
- Enhanced application responsiveness by professionally managing application state using Redux Toolkit and Thunk middleware.
- Automated API documentation using Swagger and API-curio for improved understanding and utilization of APIs.
- Designed and implemented robust authentication mechanisms to safeguard data and control user access effectively.
- Established a microservices-based back-end system, enhancing scalability and modularity for future growth.
- Enforced coding best practices by configuring ESLint and Prettier, ensuring codebase consistency and adherence to coding guidelines.

Talkies

Technical Skills used: React, Redux, ExpressJS, MongoDB, Firebase

Responsibilities:

- Developed and maintained robust and scalable web applications using the MERN stack.
- Collaborated with front-end and back-end developers to define and implement innovative solutions.
- Designed and implemented RESTful APIs for seamless integration between front-end and back-end systems.
- Worked closely with UI/UX Designers to create responsive and visually appealing user interfaces.

The Tech Greek

Technical Skills used: React, NodeJS, MaterialUI, ExpressJS, AWS

Responsibilities:

- Proficiently coded software changes and modifications using Node.js to comply with design specifications.
- Successfully implemented and updated app modules using Node.js and Java to enhance application functionality.
- Identified, diagnosed, and resolved website problems to ensure an optimal user experience.
- Implemented a robust caching strategy that resulted in a reduction in database query response time, enhancing overall application performance and user experience.

Chit Chat

Technical Skills Used: React, Redux, NodeJS, Bootstrap, Socket IO

Responsibilities:

- Utilized React and Redux for efficient app development and state management.
- Created visually appealing components and essential APIs using Node.js.
- Collaborated on the UI design of the Prep-seed App using the MERN Stack.
- Contributed to the seamless user experience through efficient app development and state management.

Easy Buy

Technical Skills used: React, Redux, Stripe, Cloudinary, Mongoose
